

# FIZZ pHREE™

## ACID SPILL KITS (INCIDENTAL SPILLS)

### FUNCTION

A safe and effective method to **neutralize** and **solidify** battery acid spills. Kit contains basic personal safety wear, clean-up equipment and **FIZZ pHREE™** in a compact, DOT qualified, rigid pail with a removable lid. Ideal for **service vehicles** and **cellular sites** with spill exposure of 5 gallon or less.

### REGULATORY CONSIDERATION:

Personnel safety risks and environmental hazards are minimized. Handles “**Foreseeable Emergency**” during “**uncontrolled release of hazardous material**” (OSHA 1910.1200). Satisfies spill neutralizer requirement in **OSHA 1926.441 & 1910.178**.

### ADDED ADVANTAGES:

- Labeled with full **use** directions and **GHS-SDS Hazard Identification statement**.
- Non-Gassing formula prevents acid splatter on skin, clothing, & equipment.
- Non-Gassing formula prevents acid mist migrating to ventilation systems.

### SIMPLE TO USE DIRECTIONS (5-1-1):

- Be just **FIVE** minutes away from neutralizing and solidifying a **ONE** pound spill with **ONE** pound of FIZZ pHREE

### EACH INCIDENTAL SPILL KIT includes:

#### Personal Safety Wear

- Goggles with side shields
- Chemical resistant gloves, apron & shoe covers
- 2 pair of dust masks

#### Clean-up Equipment

- Chemical resistant scoop & brush
- Heavy-duty residue bag

#### FIZZ pHREE

- 10 / 30 / 50 pounds in pail with removable lid
